Professional Summary

Full-stack Software Developer skilled in frontend frameworks and backend APIs, with experience in database integration and system design. Focused on performance optimization, writing clean, maintainable code for real-world applications.

Skills

Programming: Java, Python

Frontend: Angular, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, RxJS

Backend: Node.js, Express.js, REST APIs, Spring Boot, JDBC

Databases: SQL, MongoDB

Tools & Cloud: Git, GitLab, Postman, Docker, AWS (EC2, S3)

AI: Generative AI, Agentic AI, Prompt Engineering

Concepts: OOP, DBMS, System Design Patterns, Microservices

Experience

IIFE Tech

Associate Software Developer

Bhopal, India

June 2025 – Present

- Developed **DataRisk Manager**, an enterprise application for internal data and risk management, adopted by 5+ internal teams.
- Built 10+ interactive dashboards for managing systems, sources, controls, contracts, and data lineage, reducing manual reporting effort by 30%.
- Integrated frontend modules with 20+ REST APIs, enabling real-time data handling and cutting page load times by 25%.
- Containerized the application using Docker and deployed it on AWS (EC2, S3), reducing deployment time by 40%.
- Created 25+ reusable and responsive UI components using Angular, TypeScript, HTML, and CSS, accelerating feature delivery by 20%.
- Improved internal workflow efficiency by 35% through data tracking, monitoring, and reporting features.

Biz2X

Associate Software Developer

Noida, India

Aug 2024 – May 2025

- Engineered a single-page loan management dashboard, reducing workflow complexity and improving efficiency by 40%.
- Refactored legacy code into a modular architecture, increasing maintainability and scalability by 80%.
- Centralized loan data access, boosting user engagement by 50% and reducing retrieval time by 60%.
- Developed an EMI Payment History module covering 1,000+ transactions, reducing manual tracking effort by 45%.
- Implemented a dual-loan workflow, optimizing processing for 3+ loan types and improving system throughput by 30%.
- Resolved 50+ production bugs and optimized application performance by 25% through code refactoring and debugging.

Education

Lakshmi Narain College of Technology, Bhopal

B.Tech in Computer Science and Engineering (CGPA: 8.99/10)

2020 – 2024

Madhya Pradesh, India

Certifications & Achievements

- Completed Angular Framework training with hands-on experience in end-to-end application development.
- Certified in Full-Stack Web Development, covering frontend, backend, and database integration.
- Secured Runner-Up position among 20+ teams in a team hackathon.
